Muhammad Sibtain Tariq

Data Analyst | SQL | Python | Power BI

sibtaintariq001@email.com | +92 322 8770001 | Portfolio | GitHub | Muhammad Sibtain Tariq

SUMMARY

Full-Stack Developer with experience building scalable web applications, REST APIs, and AI-powered solutions using Python, Django, Next.js, and TypeScript. Skilled in both frontend and backend development, database management, API integration, and workflow automation. Focused on building responsive, efficient, and maintainable applications while delivering practical business solutions.

WORK EXPERIENCE

Global Trading Company june 2025 – aug 2025

Data Analyst Intern

- Analyzed operational and sales datasets using SQL and Python to identify trends and support business decisions.
- Developed interactive Power BI dashboards to monitor KPIs and business performance.
- Automated reporting workflows using Python to reduce manual effort.
- Performed data cleaning, validation, and quality checks to ensure data accuracy.

BPO Brigade sep 2026 – nov 2026

Custom Developer Intern

- Developing web applications and real-world projects using Next.js and modern frontend technologies.
- Working on both frontend and backend development to build functional, responsive applications.
- Improving development skills through hands-on projects, problem-solving, and practical implementation.
- Learning and applying new technologies, tools, and industry best practices.

PROJECTS

CookMate: AI-Powered Smart Kitchen Assistant

- Built a privacy-first AI kitchen assistant using Django and a local RAG pipeline, offering personalized meal planning based on dietary preferences, allergies, and fitness goals with integrated grocery management and nutritional tracking.

Sales Operations & Business Reporting Platform

- Developed a centralized automation system for a food supply company featuring centralized reporting system, operational documentation generation, agent-wise executive business reports, and real-time commission tracking, with planned Power BI and AI chatbot integration.

TINS – Tool Insurance Network | Full-Stack Web Development

- Developed a responsive, full-stack insurance platform using Next.js, featuring insurance plans, coverage details, and user-friendly interfaces with a focus on performance and user experience.

WhatsApp AI Chatbot (n8n)

- Designed and deployed a WhatsApp chatbot integrating n8n, Gemini API, and WhatsApp Business API with dynamic AI agent routing, automated Google Sheets logging, and cloud hosting on Render.

EDUCATION

Khwaja Fareed University of Engineering & Information Technology (KFUEIT) 2022-2026

Bachelors of Science in Data Science

- Data acquisition, preprocessing, big data systems, image processing and exploratory analysis
- Machine learning, core Data Analysis foundations and applied analysis

SKILLS

Data & Analytics: Python, SQL, Next-js, React-js, Excel, Pandas, Matplotlib, Power BI, DAX, Data Analysis, Data Visualization
Automation & Development: n8n, Django, Git, Workflow Automation, REST APIs, Vercel, GitHub, PostgreSQL, REST APIs, RAG Pipelines, LLaMA, Ollama,
