WORK EXPERIENCE

Global Trading Company

Business Analyst & Software Developer

May 2025 - Present

- Led data analysis and developed a fully automated internal business software system, data entered once auto-updates all reports, summaries, and calculations identifying key areas for sales growth and cost reduction through historical trend and customer behavior analysis.
- Planned Power BI dashboard and AI chatbot integration for real-time insights and operational efficiency, improving data accessibility, streamlining workflows, and contributing to strategic planning for sustainable growth.

Eminent Ecom

Amazon Specialist

Jun 2022 – Mar 2023

- Managed Amazon seller accounts across FBA operations, inventory, and store performance, optimizing listings through keyword research and SEO to improve organic rankings and drive sales growth.

PROJECTS

CookMate: AI-Powered Smart Kitchen Assistant

- Built a privacy-first AI kitchen assistant using Django and a local RAG pipeline, offering personalized meal planning based on dietary preferences, allergies, and fitness goals with integrated grocery management and nutritional tracking.

WhatsApp AI Chatbot (n8n)

- Designed and deployed a production-ready WhatsApp chatbot by integrating n8n workflows with the Gemini API and WhatsApp Business API, enabling real two-way customer communication with dynamic AI agent routing, automated Google Sheets logging for record-keeping, and reliable cloud hosting on Render.

EDUCATION

Khwaja Fareed University of Engineering & Information Technology (KFUEIT)

2022 - 2026
